3. Camera
4. Transponder reader
5. Name tag(s)
6. Signalling LEDs dedicated to the DDA function
7. Calling button
**8.** Microphone
9. Front closing screw

10. Connector for connecting to the LAN
11. Do not change the position of this Jumper
12. Terminal boards
13. Hole for running wires
14. Do not change the position of this trimmer
15. Button for restarting the device
16. Do not change the position of this trimmer
17. Anti-reflection seal

Technical specifications

Power voltage POE: 44 ÷ 57 V

Local power voltage: 48 V

Maximum consumption during video calls: 3,5 W

Maximum stand-by consumption: 2 W

LAN maximum operating distance (with POE or without POE): 100 m with CAT5 cable

Max. distance from supplementary power supply: 25 m with wire cross section of minimum 0,5 mm²

Supported user key type: Mifare (1125/54)

Name tag dimensions: 48.5 x 15.5 mm - 1.9 x 0.6 in

Tag and button light: White LEDs

Dimensions (WxHxD): 100 x 180 x 28 mm - 3.93 x 7.08 x 1.1 in

Degree of protection of casings: IP55

Degree of protection from mechanical shocks: IK07

Working temperature range: -10 °C ÷ +55 °C
